CODE

Limited examples are available as a large part of the work I've contributed has been to private repositories in recent years. Some examples do exist, though. See the following links for some of my commits to public code:

- [Crunchy Data PostgreSQL Operator](#)
- [Crunchy Data Container Suite](#)

DESIGN & DEVELOPMENT

Additional screenshots and a list of websites I've contributed to or fully developed can be found on my LinkedIn; those found here are isolated examples of some recent work. All screenshots are partial images of longer pages.
